ONLINE STAGE AWARD CONTEST

“Award” is one of the competitive areas of the international competition-award “KARDO”, focused on recognizing and encouraging the best communities and organizations that have made the greatest contribution to the development of a specific area of street culture and sports over the past year.

The Award competition is a recognition of the best communities and organizations that have made the greatest contribution to the development of street culture and sports. Unlike “Competitions”, it involves not individuals, but legal entities - teams, clubs, federations, brands and associations.
